

PUBLIC NOTICE
For
Air Quality Operating Permit
for Trunk L Compressor Station of Williams Four Corners LLC

Williams Four Corners LLC at 188 County Road 4900; Bloomfield, NM 87413 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Trunk L Compressor Station. The owner of this plant is Williams Four Corners, LLC. The exact location of the facility is at latitude 36 deg, 38 min, 35.79 sec and longitude -107 deg, 21 min, 18.72 sec. To aid in locating this facility, the approximate location is 36.5 miles east southeast of Bloomfield, New Mexico in Rio Arriba County. Trunk L Compressor Station is approximately 4 miles off the road at mile marker 101.1 on Highway 64 heading East from Bloomfield. This application file has been assigned an Operating Permit Number P166R3 and TEMPO Agency Interest ID No. 1037.

Previously, the facility received an air quality construction permit and is in operation.

The main purpose of the facility is to compress and dehydrate pipeline quality natural gas for pipeline transmission using natural gas-fired reciprocating engines.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves incorporating all actions since P166R2M1 including the addition of Startup, Shutdown, Maintenance and Malfunction emissions, a change in the responsible official and a like-kind replacement of four compressor engines. The emissions, as established in NSR Permit 1527-M4, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit – P166-R2-M1. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO_x) at 232.5 tpy (no change); Carbon Monoxide (CO) at 414.8 tpy (no change); Volatile Organic Compounds (VOC) at 374 tpy (no change); Sulfur Dioxide (SO₂) at 0.5 tpy (-1.3); Particulate Matter 10 microns or less (PM₁₀) at 5.4 tpy (no change), and Particulate Matter 2.5 microns or less (PM_{2.5}); and greenhouse gas (CO₂e) > 75,000 tpy.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 74, 75, and 80; 40 CFR 50 and 52; 40 CFR 63 Subparts A and HH, 40 CFR 64 and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before June 7th, 2015.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P166R3 by contacting Maxine Paul at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Maxine Paul at 505-476-4349.
